# Get your gear into a Southern Cross Shed!

**Southern Cross Sheds** can be built to your specifications – any size, any type. Doors and windows where you want them. Height, span and finish to match your needs and standard design features that make Southern Cross Sheds a cut above the rest right from the start.

## Each building has the following Features

- Pre-cut & punched portal frames
- Multiple cladding & colour options
- Fast delivery time (standard 21 days)

INSLAB BRACKET

VERMASEAL

## Features, Advantages & Benefits

☆ Features	☆ Advantages	☆ Benefits
Fully Engineered Structural Designs	Designs meet or exceed all Australian standards for structural integrity	Ease of building with local authorities
Manufactured to any size	Not restricted to any "Standard" sizes	You get exactly what you want
Fully galvanised frame, no welded components	Will not rust, Will not warp, Will not burn	Maintenance free, you never have to paint
Footing Brackets cast into concrete slab	Phenomenal strength to the anchoring of your shed	Your shed will not blow down in a heavy storm, lives will not be endangered
We only use quality Bluescope Steel, fully warranted products	Australian made for Australian conditions, lasts longer	If something should go wrong, you won't need to phone Asia for support
Quality computer generated documentation	Accurate reflection of your needs	You get the shed you thought you ordered
